

ZonePayments

Integrate Stripe payments and reconcile cash completely in Netsuite

Integrated AR, seamless payments

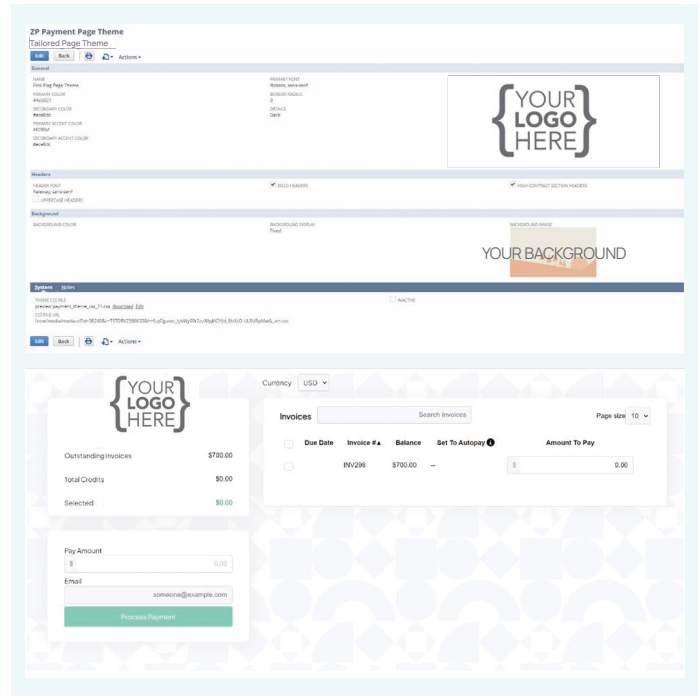

ZonePayments is native to NetSuite, so your AR team can work fully in Netsuite while customers pay in a tailored Stripe payment portal.

Improve days sales outstanding (DSO)

ZonePayments improves DSO by providing a quick and easy way for customers to submit payment via Stripe. An auto-pay option can automatically charge their payment method on file when an invoice is generated.

Auto reconciliation to NetSuite

Skip manual reconciliation. When Stripe submits a settlement to your bank account, the payout is pulled into NetSuite automatically. ZonePayments will match the payouts against existing payments and record deposits for easy audit trails.

"Effortlessly integrated Stripe payments enhancing efficiency and financial control: I experienced seamless integration and improved efficiency with customer transaction success rate with ZonePayments."

– Vikas S, a validated G2 reviewer

Top reasons to use ZonePayments

Automate quote-to-cash

Got ZoneBilling? ZonePayments is a seamless part of Zone's quote-to-cash workflow, from your quoting tool to ZoneBilling subscriptions to bill payments.

Multiple accounts? No problem.

Use one single framework to support multiple Stripe accounts and route payments based on your business segments. Plus, easily apply custom branding to your payments experience.

Turnkey integration

It's easy to set up and customize your payment pages without needing to know how to code. ZonePayments offers a "no-code, no middleware" configuration.

Why customers prefer to pay with ZonePayments

▶ Invoice and sales order pay

Quickly make payments on sales orders or invoices via credit card, ACH and SEPA direct debit.

▶ Statement pay

See and pay multiple invoices on one screen – even if the customer has multiple subsidiaries.

▶ Optional deposit or partial pay

Customers may submit partial payments and mandatory deposit amounts.

▶ Dynamic pay

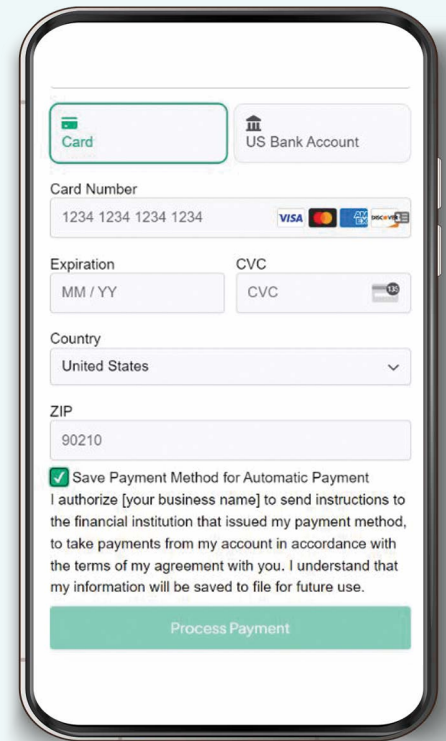

Limit payment options exclude payment methods based on pay amount using rules applied at the Payment Profile (subsidiary) level.

▶ Easy refunds

If an invoice or two needs to be partially or fully refunded, it's easy to do so in Stripe or directly within NetSuite.
